

# COOKIE POLICY

Cookies are used on pwi-e.com, why they are used, and how you manage your preferences.

Last updated: July 1, 2026

## WHAT ARE COOKIES?

Cookies are small text files placed on your device (phone, tablet, or desktop computer) when you visit a website. They help the site remember choices you have already made – such as your language preference or whether you have already seen a notice – so you are not asked to make those same choices again each time you load a new page.

Cookies cannot run programs or deliver viruses to your computer. Each cookie can only be read by the domain that created it – though third-party services we use, such as Google Analytics, set their own cookies that they can read across any site using their service.

## HOW WE TRACK YOUR VISIT

When you visit pwi-e.com for the first time, a cookie preference banner appears at the bottom of the screen. Your choice is saved in your browser and remembered on future visits. PWI site administrators may also enable an internal compliance log to record that choice (timestamp, page visited, and your analytics/marketing selections only). That log does not include your name, email address, or other personal information.

Google Analytics code is present on our pages, but analytics cookies and stored analytics data are used only if you accept analytics cookies. Until then, analytics storage remains disabled through Google Consent Mode.

The banner does not reappear on subsequent visits unless our policy changes or you clear your browser storage.

## COOKIES WE USE

| Category          | Name / Source                                                    | Purpose                                                                                                                                                                                                                                                                                                                                                           | Duration                                                                         |
|-------------------|------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|
| <b>Necessary</b>  | pwi_cookie_consent<br>(localStorage)                             | Stores your cookie preference so the banner does not reappear on every visit                                                                                                                                                                                                                                                                                      | Persistent<br>(until cleared)                                                    |
| <b>Functional</b> | Internal consent log                                             | Records timestamp, page URL, and cookie preference selections for compliance records when consent audit logging is enabled. No personal information.                                                                                                                                                                                                              | Retained per<br>PWI internal<br>records policy                                   |
| <b>Necessary</b>  | pwi_newsletter_email,<br>pwi_newsletter_from<br>(sessionStorage) | Pre-fills the sign-up form with the email address you entered on the homepage, so you do not have to type it again.                                                                                                                                                                                                                                               | Session only<br>(auto-cleared<br>on tab close or<br>immediately<br>on page load) |
| <b>Functional</b> | Google Translate<br>(googttrans and related<br>cookies)          | Remembers your selected language when you use the site language picker. Page text is processed by Google to provide translation. If you have previously selected a language, this script loads automatically on each visit to restore your preference. To stop it from loading, switch the language selector back to English – this clears the stored preference. | Session to<br>persistent<br>(Google-<br>controlled)                              |
| <b>Analytics</b>  | Google Analytics (_ga, _gid,<br>_gat)                            | Aggregated usage data – pages visited, session duration, referral source. Analytics cookies apply only if you accept analytics cookies; measurement code loads with storage disabled until then.                                                                                                                                                                  | Up to 2 years                                                                    |

| Category  | Name / Source        | Purpose                                                                                           | Duration |
|-----------|----------------------|---------------------------------------------------------------------------------------------------|----------|
| Marketing | Not currently in use | Would be used to measure advertising effectiveness. No marketing cookies are active at this time. | —        |

## MANAGING YOUR PREFERENCES

You can change your cookie preferences at any time by clicking the button below. Your updated choice will be saved immediately.

[Open cookie settings](#)

You can also clear all saved preferences by deleting `pwi_cookie_consent` from your browser's localStorage (in most browsers: DevTools → Application → Local Storage → `pwi-e.com`).

## BROWSER-LEVEL CONTROLS

Most browsers allow you to block or delete cookies entirely through their settings. Note that blocking all cookies may affect site functionality. See your browser's help documentation for instructions:

- Chrome: Settings → Privacy and security → Cookies and other site data
- Firefox: Settings → Privacy & Security → Cookies and Site Data
- Safari: Preferences → Privacy → Manage Website Data
- Edge: Settings → Cookies and site permissions

## LEGAL BASIS FOR USING COOKIES

For visitors from the European Union or United Kingdom, our use of cookies is based on the following legal grounds under GDPR:

- **Necessary cookies:** [Legitimate interest\\*](#) — these are required for basic site functionality and cannot be disabled.

- **Functional cookies:** [Legitimate interest](#)\* – used when you choose to translate page content via Google Translate. You can avoid them by not using the language picker.
- **Analytics cookies:** Consent – these are only activated after you accept via the cookie preference banner.
- **Marketing cookies:** Consent – no marketing cookies are currently in use. If introduced in the future, explicit consent will be required.

\* Legitimate interest is a legal basis under GDPR meaning the processing is necessary for the site to function, so it does not require your separate consent.

You may withdraw consent at any time by updating your preferences using the button in the Managing Your Preferences section above.

#### INTERNATIONAL DATA TRANSFERS

When analytics cookies are enabled, data is processed by Google Analytics, which may transfer and store data on servers located outside your country, including in the United States. If you use Google Translate, page content and related data may also be processed by Google. Google LLC participates in the EU-U.S. Data Privacy Framework and relies on Standard Contractual Clauses for international data transfers. For more information, see [Google's privacy policy](#).

PWI, Inc. is based in Wichita, Kansas, USA. If you are visiting from outside the United States, please be aware that any information you submit through this website will be processed in the US in accordance with our Privacy Statement.

#### THIRD-PARTY SERVICES

Google Analytics may set cookies when you accept analytics preferences. Google Translate may set cookies when you use the site language picker. Both are governed by Google's privacy policy. Our site search page loads a search library from jsDelivr ([cdn.jsdelivr.net](https://cdn.jsdelivr.net)); that connection does not set PWI cookies. PWI does not sell or share personal data collected through cookies with any third party for their own marketing purposes.

#### DO NOT TRACK

Some browsers offer a "Do Not Track" (DNT) setting that signals to websites that you do not want your online activity tracked. There is currently no industry-wide standard for how websites should respond to DNT signals. At this time, pwi-e.com does not alter its data collection practices in response to DNT signals. You can control cookie usage directly through our preference banner or your browser settings.

#### CHANGES TO THIS POLICY

We may update this Cookie Policy from time to time. When we do, we update the "Last updated" date at the top of this page. If we make a material change to what cookies we use, your stored preference will be cleared and the consent banner will reappear on your next visit.

#### CONTACT US

Questions about our use of cookies? Contact us at [privacy@pwi-e.com](mailto:privacy@pwi-e.com) or see our [Privacy Statement](#) for broader data practices.
