6910100-041; Supplement 35 - Lear 36/36A
6910100-031; Supplement 38 - Lear 60/60XR

LED LIGHTING INTERIOR UPGRADE

Renew the cabin in the Lear 35/35A, 36/36A and 60/60XR with modern PWI LED lighting.

Replace all original fluorescent lighting with new LEDs to instantly refresh the look and feel of the cabin. No more high voltage power supplies or hard-to-find lights, no more slow starts, flicker, buzz or humming.

Add PWI PMA-approved LED reading lights and make the entire cabin new again with no maintenance.

Put our more than 50 years of aviation lighting experience to work in your Learjet today.
